ANDERSON SCHOOLS TRY NEW DEPARTMENT

READY FOR WORK IN THE
MANUAL ARTS

FURNITURE HERE

School Officials Believe That New
Work Will Interest Students
and Be Productive.

The working desks and new fur-
niture intended for use in the de-
partment of manual arts, soon to be
established in the Kennedy street
school, arrived yesterday. Within
the next few days all other arrange-
ments and preparations for getting
the new department underway will
be complete and the first class will
go to work in earnest.

Discussing the matter Saturday,
Prof. G. W. Chambers says that he
is well pleased with the prospects
and he believes that the addition to
the school course will be of real ben-
efit to the school and also to the
pupils of the institution. Prof. Cham-
bers is enthusiastic over the work he
hopes to accomplish in Anderson.

One of the teachers in the Kennedy
street school has taken up the girls'
"Camp Fire" work and already a
splendid class is enrolled in that de-
partment. The girls of the institution
are much interested and are de-
termined that their instructor will
have no reason to be disappointed be-
cause of lack of results. This bids
fair to become one of the most popu-
lar features of the Kennedy street
school.

The sewing classes, recently intro-
duced at this popular school, are be-
coming very interesting and almost
every girl in the school is taking a
hand. When they become a little
more proficient in this work, they
will make for themselves a number
of class suits and a picture of the
sewing class, attired in clothes of
their own make, will be printed in
The Intelligencer.

Prof. Chambers first taught classes
in manual training at St. Petersburg,
Fla., several years ago. When it was
ascertained that the school board
was willing to lend some financial as-
sistance toward getting the classes
started in Anderson schools, Mr.
Chambers went to Chicago, where he
took a summer course, and had sev-
eral high honors paid him during his
stay there, by members of the faculty
of the Chicago institution.

Mr. Chambers believes that the An-
derson schools will all take to the
work and he says that he expects to
be able to show the parents some-
thing by the time the school year
comes to a close.

Railway "Groups" Only Solution

(By Associated Press.)
KANSAS CITY, Mo., Oct. 24.—Es-
tablishment of railway "groups,"
somewhat after the manner of regional
reserve banks, each group to be
governed by a board of directors on
which the government would be repre-
sented, was urged as the solution of
the problem of railroad operation by
E. P. Ripley, president of the Atchison,
Topeka & Santa Fe Railway in an
address here tonight. Mr. Ripley
said the idea was his own.

"The present system of management
cannot last. It almost may be said
to have broken down already," said
Mr. Ripley. "If the government
having one or more seats on railroad
boards, and the power of absolute veto,
all economies to common owner-
ship might be practiced."

GOVERNMENT HELP THE FARMER?

One thing the farmers of the South are asking themselves
thoughtfully nowadays is this: What, if any, provision is there in
the Federal banking laws that may be depended upon surely to take
care of an agricultural panic, real or threatening?

Provision seems to be ample for handling commercial panics, but
with this the farmer is not primarily concerned. He can recall—
and doubtless often does—how the Federal government a few years
since threw itself into the breach, and, by depositing large sums of
money with big financiers in the East, averted the full effects of the
last great commercial panic, but the farmer somehow can NOT re-
call when the government rushed to HIS aid in a time of agricultural
panic, pure and simple!

The banks seemingly are able to take care of people with com-
mercial collateral covering loans of from thirty to ninety days' dura-
tion, who find themselves unexpectedly caught short, but the farmer
does business upon a longer time basis. He borrows in January
and February—at least, the Southern farmer does—upon crop pros-
pects in September, October and November. If trouble overtakes
him in the meantime, he is hopelessly "up against it"—at all events,
he is, compared with the purely commercial risk.

The farmer finds that the banking system of the nation ap-
parently was made not for HIM, so much as for his more fortunate
brother, who is able to do business upon a commercial basis, on short
term loans.

Consider, for example, the present seeming inability of the Fed-
eral government to extend any direct and specific aid to the cotton
growers of the South—and theirs is an AGRICULTURAL panic. If
it were a commercial panic, the situation might be radically different.

Has Washington, the home of the Federal government, set in
an environment of commercialism, lost sight, perhaps, in large mea-
sure, of the greater agricultural interests and necessities throughout
the nation?

There is a big and GROWING question involved in this sugges-
tion.

fighting here, as well as farther
south, towards Arras and Roye, that
even the accounts of trainloads of
wounded, being taken daily to the
hospitals can not be exaggerated.

The same can be said of the district
between the fortresses of Verdun and
Toul, where two armies have been
battling for many weeks with gains
and losses amounting virtually to
nothing as far as distance is con-
cerned.

Ask Truce to Bury Dead.

Today both sides claim success in
a battle in which there were so
many victims that the Germans asked
for a truce to bury their dead.

This plea was refused.

In Poland the Russians having
compelled the Germans to desist from
their first attack on Warsaw and
Trangorod are preparing for a repul-
sion of the offensive on the part of
their adversaries by bringing up more
men and guns.

In the East.

The Russians, also, apparently are
engaged in offensive operations on
the east Prussian frontier, as the
German official report refers to an
unsuccessful attack at Augustowo.

Of fighting in Bosnia accounts are
so contradictory that no judgment
can be formed. The Austrians claim
to have defeated the Serbians and
Montenegrins, while both those pow-
ers say the Austrian attacks along
the Bosnian frontier have been repel-
led.

CHOOSE NAME FOR THE HANDSOME THEATRE

WILL BE THE BEST IN THE
ENTIRE SOUTH

COMPLETING PLANS

Lessees and Owners Have Decid-
ed That Place Will Be Open-
ed on February 1.

"You can say for me that the Ander-
son Theatre surpasses my most san-
guine expectations and that I am well
pleased in every respect," said C. H.
Bleich yesterday. Mr. Bleich and his
partner, Odie Davis, a well known
capitalist, came to Anderson Friday
from Hopkinsville, Ky., and spent all
of Friday and Saturday in going over
the theatre plans, closing up contracts
and getting ready to book attractions.

These two gentlemen have leased the
Anderson amusement place and will
make it the best theatre in the South
if none of their plans go astray.

At a conference yesterday between
the board of directors of the Ander-
son Development Company and Mes-
srs. Bleich and Davis, the matter of
a name was discussed at some length
and it was finally determined to call
the place "The Anderson." February
1 was selected as the date for the the-
atre to open and within a few days af-
ter Mr. Bleich gets back to Hopkin-
sville he will go on to New York and
will endeavor to book some stellar at-
traction for the opening night in An-
derson. It is hoped to get one of the
best stars on the stage today for the
first performance to be seen here.

Anderson people will be interested
in learning that Mr. Bleich has closed
up with Klav & Erlinger to book all
the attractions for The Anderson. This
firm is probably better known to Sou-
thern theatre goers than any other in
the United States since it handles the
bookings for all the best theatres and
theatrical attractions in this country.

Following his trip to New York, Mr.
Bleich will come back to Anderson in
about three weeks for the purpose of
meeting here with representatives of
seating companies, scenery concerns,
paint representatives and others, at
which time all these contracts will be
let and everything put in readiness
for the opening night.

The steel girders and beams arrived
in Anderson yesterday and Monday
morning workmen will be placing
these in the new theatre building and
getting the steel work well under way.
There is no doubt about the theatre be-
ing ready for use by February 1.

In addition to showing theatrical at-
tractions in the new theatre, Mr.
Bleich is to open a moving picture
house here, to show on nights when
no operatic attractions are booked.

The latest models of improved motion
picture machinery will be purchased
by Mr. Bleich while he is in New York
and he will endeavor to secure im-
proved screens, so that his place will
be the only one of its kind in this sec-
tion.

Before leaving last night for Hop-
kinsville, both Mr. Bleich and Mr. Da-
vis said that The Anderson theatre
will positively be the best theatre in
the South and that it will secure at-
tractions no other city in this section
can hope to get. They contemplate
trying to secure other houses in
this section and Mr. Bleich said last
night that he and his partner might
possibly be operating 10 or 12 theatres
in this part of the South before an-
other year goes by.

Shows Surplus;
First in Weeks

(By Associated Press.)

NEW YORK, Oct. 24.—The state-
ment of the average condition of
clearing house banks and trust com-
panies for the week show that the
cash reserve increased \$9,394,800,
making a surplus of \$8,460,650 above
legal requirements. This is the first
time in weeks that the statement has
shown a surplus cash reserve.

The statement follows:

Average Condition.

Loans \$2,160,489,000, decrease \$11-
024,000.

Specie \$340,265,000, increase \$4-
635,000.

New York Cotton

NEW YORK, Oct. 24.—A decidedly
cheerful feeling prevailed on the cot-
ton exchange today regarding the
possibility of an early reopening.
Part of this was due to a report that
both the syndicate and corporation
plans had been oversubscribed and
that an announcement was only
awaiting a few unimportant details
yet to be completed. It is expected
the conference committee will soon
take up with Liverpool the question
of opening the two exchanges simul-
taneously. New England mills are
said to be considering large orders
for heavy drills but are unable to
cover their sales with purchases of
cotton and are awaiting the opening
of the exchanges in order to hedge
their transactions. In the last few
days limited purchases of cotton close
to 7 cents delivered, have been made
by these mills.

New Orleans Cotton

NEW ORLEANS, Oct. 24.—The
week in the cotton market closed with
a fairly steady tone, January trading
at 7 cents and spots standing at 6 1-2
cents here for middling.

In the spot market it was said that
purchasing was not as easy as ear-
lier in the week, many holders being
firm in their views and demanding
higher than board quotations. Some
standstill appeared to be derived
from reports of progress in the at-
tempts now made to reopen the
future markets. Spot cotton quiet.
Sales on the spot 347; to arrive 350.

Cotton Seed Oil

NEW YORK, Oct. 24.—The cotton
seed oil market was weak under con-
tinued pressure of hedge selling
against liberal offerings of grade, and
in sympathy with the hard market,
closing 3 to 9 points net lower. Price
crude \$3.73.

The market closed weak. Spot.

Liverpool Cotton

LIVERPOOL, Oct. 24.—Cotton spot,
in fair demand; prices unchanged.
Sales 4,500 bales, including 2,600
American on the basis of 50s, for
middling.

Imports 4,933 bales, including 1,427
American.

Dry Goods

NEW YORK, Oct. 24.—Cotton goods
markets were steadier today and
yarns were quiet. Burlaps, consid-
erably easier at Calcutta were slightly
firmer here. Lintens were firm.
Sweater coats were firmer and tend-
ed higher. Underwear and hosiery
were quiet.

Chicago Grain

CHICAGO, Oct. 24.—What took a
downward slant today, influenced by
a lessening of export sales and pro-
fit taken by holders. The market
closed unsettled at 3-4 to 1 cents de-
cline. Corn finished 3-8 to 1-2 off,
oats 1-4 to 3-8 and provisions varying
from a setback of 10 cents to an
equal advance.
